

IMPROVING COMMUNICATION WITH DEMENTIA

An education program presented by the Alzheimer's Association®

Communication is more than just talking and listening — it's also about sending and receiving messages through attitude, tone of voice, and body language. As the disease progresses, individuals

Join us to explore how sensory changes related to dementia may lead to communication barriers and misunderstood behaviors. Learn how to interpret the verbal and behavioral communication, and identify strategies to help you connect and communicate at each stage of the disease.

Light refreshments will be served.
Registration not required.
